Tire Crumb is not that interesting at all. A complete waste of my time.

Mark

Detlef,

We have not yet dissolved them yet. I have been told I need to finish up tire crumbs (jan 15th) before I do any PFAS work. However yes I can give you some as soon as I can.

Mark,

Would it be possible to get a very small amount (100 ng) of Nafion by-products 1 and 2 for adsorption isotherm experiments?

Detlef
